# Next generation smart solutions

---

FutureKNX delivers advanced KNX solutions for smart homes and buildings, combining innovative engineering with reliable performance.

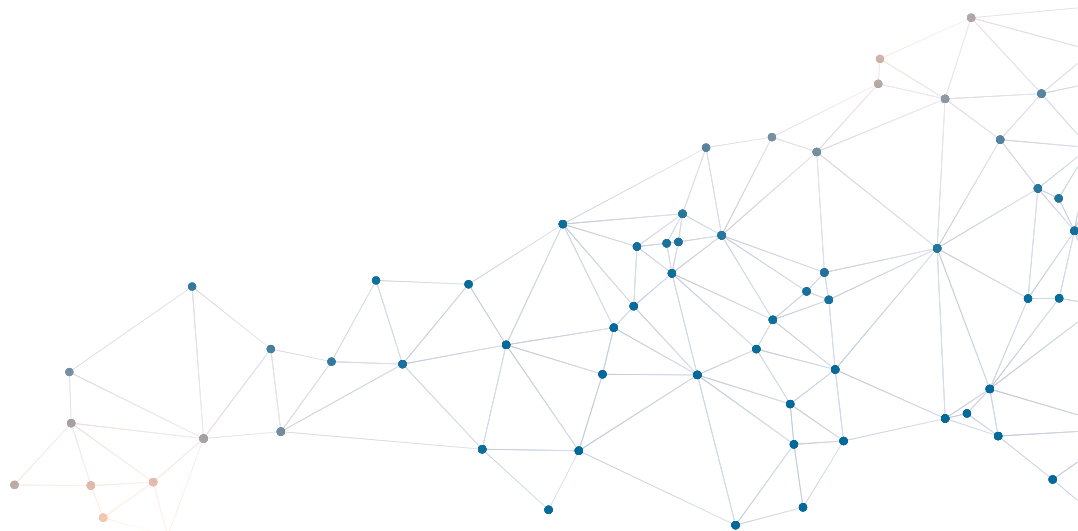

With over 20 years of experience, our products are designed for seamless integration, flexible control, and long-term stability.

Engineered for professionals, our solutions ensure efficiency, scalability, and a superior user experience.

# Product overview

System Devices		Page
FTR-BIOS5IO.1.1	BIOS Bus Integrated Object Server with serial interface RS 485, 255 Knx data points	1
FTR-PS640.1.1	640 mA KNX Power Supply. Nominal current 640 mA, peak current 1200 mA with additional choke free output	1
FTR-UN8.1.1	8 fold Universal Interface IO + 8 Digital Input/Output + 4 Analog Input / 4 Channel RTC function	1
Multi Actuators		
FTR-MSA0812.1.1	8 Output - 12 Digital Input Multi actuator. Switch & Shutter & Blind & Heating & Fancoil Control	2
FTR-MSA1612.1.1	16 Output - 12 Digital Input Multi actuator. Switch & Shutter & Blind & Heating & Fancoil Control	2
FTR-MSA2412.1.1	24 Output - 12 Digital Input Multi actuator. Switch & Shutter & Blind & Heating & Fancoil Control	2
KNX AC Gateways		
FTR-ACME.1.1	ACME Future KNX Mitsubishi Electric AC KNX gateway+ 2 analog Input	3
FTR-ACDK.1.1	ACDK Future KNX Daikin AC KNX gateway+ 2 analog Input	3
KNX Presence and True Presence Sensors		
FTR-PIR.1.1	Presence sensor with 6 - 8 Meters Range and 2 Binary / Analog Inputs	4
FTR-PIR.1.2	Presence sensor with 10 - 12 Meters Range and 2 Binary / Analog Inputs	4
FTR-PIR.1.3	True Presence sensor with 6 - 8 Meters Range and 2 Binary / Analog Inputs	4
IoT Devices		
FTR-KNXBLE.1.1	KNX-Bluetooth Gateway / Controlled by App or up to 3 pcs of Remote FTR-RMT.1.x, Programmed By ETS	5
FTR-RMT.1.1	KNX-Bluetooth Remote. Can make 12 short & 12 long press controls, Switch, Dimming, shutter, blinds etc.	5
FTR-RMT.1.4	KNX-Bluetooth Remote. Can make 4 short & 4 long press controls, Switch, Dimming, shutter, blinds etc.	5
FTR-RMT.1.8	KNX-Bluetooth Remote. Can make 8 short & 8 long press controls, Switch, Dimming, shutter, blinds etc.	5
FTR-FGK.1.1	KNX-Secure smart access with keypad, fingerprint, and KNX Bluetooth control	5
FTR-KLL.1.1	K-Tech Smart Lock Bundle ( with KNX Bluetooth Gateway )	5
KNX Room Display Panels		
FTR-RDP.1.1	Room display Panel with Plastic Frame, glass front, Size: 120mm x 188mm	6
FTR-RDP.1.2	Room display Panel with Metal Frame, glass front, Size: 120mm x 188mm	6
FTR-RDP.1.3	Room display Panel with Metal Frame, glass front, Size: 120mm x 188mm	6
Quado Smart Keypads And Thermostat		
FTR-MSxS.1.1	Quado Deluxe flat and Brushed Metal Keypads 2-8 buttons	7
FTR-MSxS.1.1	Quado Luxe Silk Matt Paint Plastic Keypads 2-8 buttons	8
FTR-MSxS.1.1	Quado Prestige Stone Keypads	9
FTR-MSxS.1.1	Quado Luxeart and Deluxeart Special design art & smart keypads	10
FTR-MSxT.1.1	Quado Luxe & Deluxe & Prestige series Thermostats	12
QuadOS Intercom		
QuadoOS10	10" Android, IPS Touch Screen KNX and RF Smart home control & Integrated IP Gateway.	13
AYPOEZP1	Apartment Type IP Outdoor Panel 7" Screen - ICCard, Password and Face Recognition access.	14
AYPOEVZP3	Villa Type IP Outdoor Panel, Security call and ICCard function	14

# System Devices

## BUS Integrated Object Server with Serial Interface RS485

BIOS Module is a cost effective way to make devices KNX-capable with 255 freely configurable channels (KNX data points).The modules serve as a serial interface to KNX.

### BIOS Bus Integrated Object Server and Serial Interface

Order No	List Price
FTR-BIOS.1.1	<b>59 €</b>

Contact us for project pricing.

## KNX Power Supply 640mA

The KNX Power Supply is a 640 mA bus power supply with high efficiency. The device has an integrated bus choke and additional output for auxiliary power. Overload Autoreset Function  
Nominal current 640 mA, peak current 1200 mA.

### 640 mA-KNX Power Supply with Aux power.

Order No	List Price
FTR-PS640.1.1	<b>72 €</b>

Contact us for project pricing.

## 8 Channel Universal Interface with 4 zone RTC

The KNX TP Universal Interface is a push button interface is suitable as a binary input for connecting up to eight conventional push buttons or potential-free contacts and integrated room temperature controls.

- 4x10k NTC temperature sensor input
- 4 RTC zone thermostat function
- 4x LED output
- 40x40x13mm compact size

### 8 fold Universal Interface IO + 8 Digital Input/Output

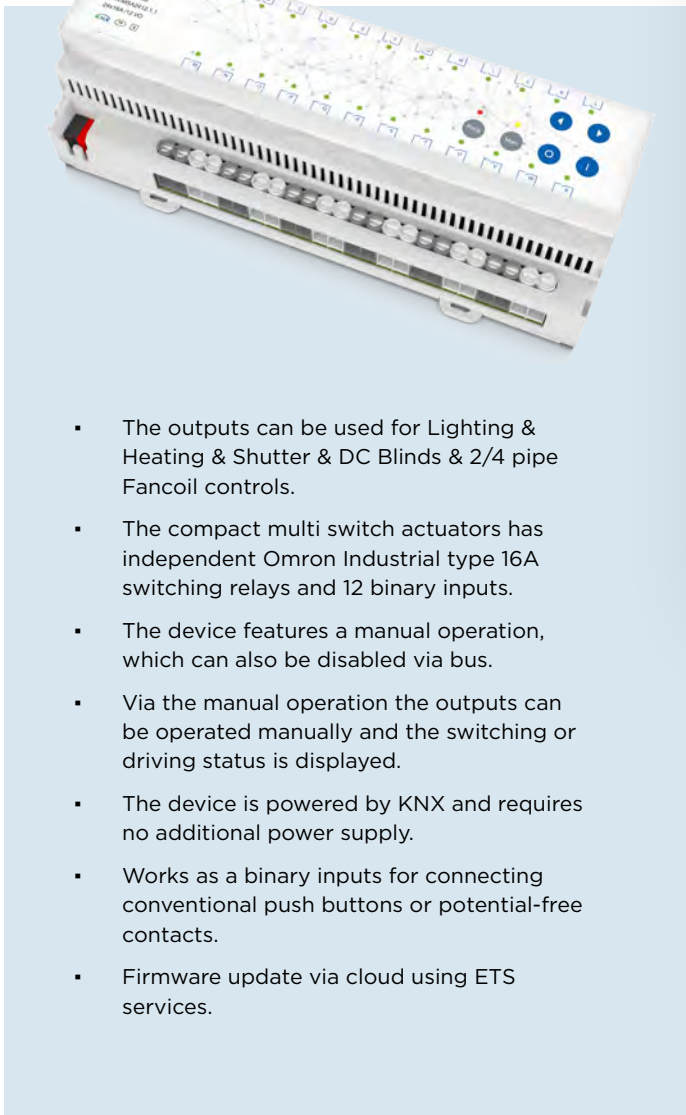

Order No	List Price
FTR-UN8.1.1	<b>68 €</b>

Contact us for project pricing.

# Multi Actuators

## 8 - 24 Output & 12 Digital Input Multi actuators.

- The outputs can be used for Lighting & Heating & Shutter & DC Blinds & 2/4 pipe Fancoil controls.
- The compact multi switch actuators has independent Omron Industrial type 16A switching relays and 12 binary inputs.
- The device features a manual operation, which can also be disabled via bus.
- Via the manual operation the outputs can be operated manually and the switching or driving status is displayed.
- The device is powered by KNX and requires no additional power supply.
- Works as a binary inputs for connecting conventional push buttons or potential-free contacts.
- Firmware update via cloud using ETS services.

### 8 Output - 12 Digital Input Multi actuator.

Order No	List Price
FTR-MSA0812.1.1	<b>156 €</b>

### 16 Output - 12 Digital Input Multi actuator.

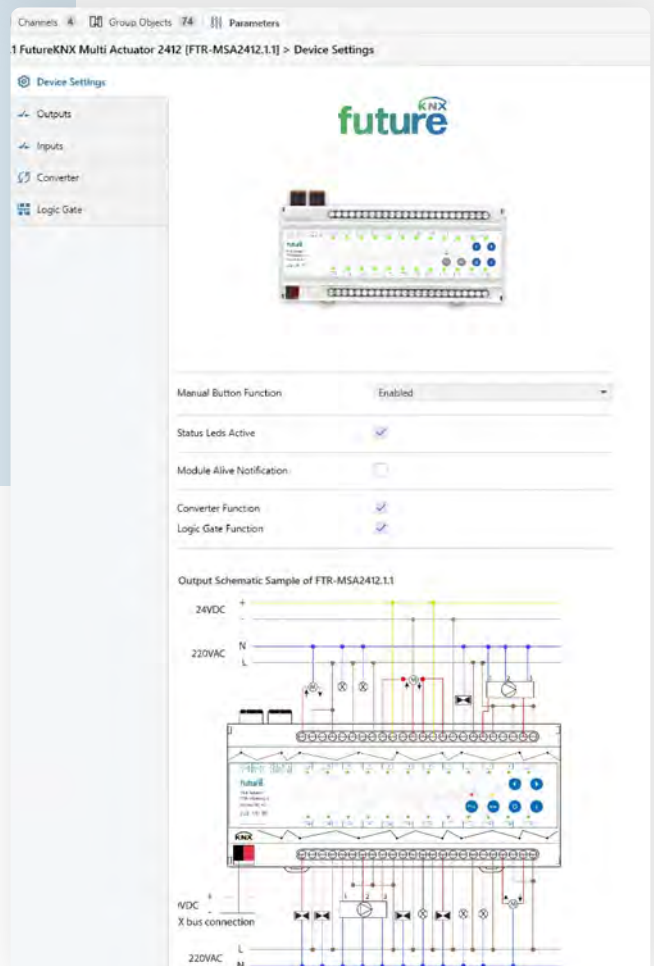

Order No	List Price
FTR-MSA1612.1.1	<b>199 €</b>

### 24 Output - 12 Digital Input Multi actuator.

Order No	List Price
FTR-MSA2412.1.1	<b>238 €</b>

Contact us for project pricing.

12 inputs for all actuators

16A industrial OMRON relay inside  
Effective ETS Parameters

# KNX AC Gateways

## KNX AC Gateways

### AC Gateways

The AC gateway enables bidirectional control of commercial and industrial air-conditioning from KNX systems. It offers 2 analog-digital inputs for temperature probes, motion sensors, or binary inputs. Additionally, it includes logic and converter functions, all packed into a compact 40x40x13 mm size.

#### KNX AC Gateway designed for Daikin P1/P2

Order No	List Price
FTR-ACDK.1.1	<b>78 €€</b>

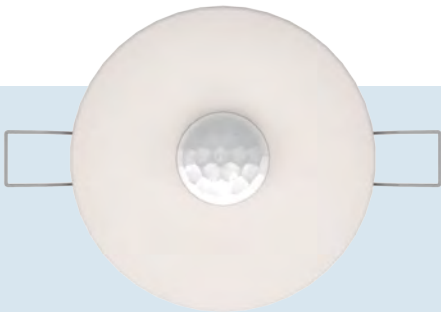

#### KNX AC Gateway designed for Mitsubishi Electric

Order No	List Price
FTR-ACME.1.1	<b>84 €</b>

More of Them coming soon... Contact us for project pricing.

# Presence Sensors

The KNX sensor provides precise detection for smart building applications. It supports motion for efficient automation.

Designed for seamless KNX integration, it ensures reliable and responsive performance in a compact design.

v2 Versions will include humidity, temperature, and brightness measurement at 2027

2 Channel Configurable v1

- Binary Input
- NTC 10K Input
- LED Output

#### Presence And True Presence Sensors v1

##### 6 - 8 Meters Range Presence Sensor

Order No	List Price
FTR-PIR.1.1	<b>62 €</b>

##### 10 - 12 Meters Range Presensce Sensor

Order No	List Price
FTR-PIR.1.2	<b>78€</b>

##### 6 - 8 Meters Range True Presensce Sensor

Order No	List Price
FTR-PIR.1.3	<b>96 €</b>

Contact us for project pricing.

## KNX & Bluetooth Ecosystem

Bluetooth Remote

Bluetooth Remote Keypads

KNX Bluetooth Gateway

Fingerprint & Keypad Controller

K-tech Smart Lock

- Compact Size
- 255 Configurable Channels
- IFTTT Integration
- Short & Long Press

A versatile KNX-based solution with integrated Bluetooth connectivity, designed for efficient control of lighting, curtains, and other smart devices. The system includes a range of user-friendly interfaces such as remotes, keypads, fingerprint controllers, and a KNX Bluetooth gateway for seamless integration into KNX networks.

With multiple configurable channels, customizable short and long press functions, and support for scene control and automation, it offers flexibility for both residential and commercial applications. Its modern design, reliable performance, and easy operation make it an ideal choice for smart living environments.

### KNX-Bluetooth Gateway

# KNX Room Display Panels

FTR-RDP.1.1

FTR-RDP.1.2

FTR-RDP.1.3

The KNX Room Status Panel is a fully KNX-based solution designed for modern hotel and hospitality applications.

Unlike conventional systems, all functions—such as DND, MUR, and doorbell control are directly managed via KNX communication, enabling seamless integration with room automation, HVAC, and lighting systems.

All indicators, icons, and behaviors can be fully configured via the planner software, offering maximum flexibility without hardware limitations.

- Fully KNX-based operation (no external controller required)
- ETS Configurable DND, MUR, and room status indicators
- Integrated doorbell function
- Fully configurable via planner software
- Customizable icons, layout, and behavior
- Seamless integration with KNX room automation
- Ideal for hotel and hospitality applications

Easily design and configure your project

# Quado Deluxe

## Quado Deluxe Flat and Brushed Metal Keypads

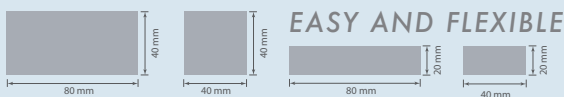

Master both the push-button function with the temperature set and thermostat logic as well as the rocker function. Available in 2,3,4,...,8 button configurations. Everything at home is waiting for your instruction.

Users can use the ETS to execute programming settings which is intuitive and reliable and extend the value of intelligence and convenience to the maximum, and realize a install and use configuration method

- Prepare scenarios.
- Control it remotely.
- Ask for unlimited color and button combinations
- Have an energy-saving assistant.
- Read room temperature.
- Use RTC thermostat logic.
- Everything is under control.
- All are ready from a single keypad.
- Firmware update via cloud using ETS services.
